# School of LOCKS!

Your hair problems solved  
in three simple steps!

**THE PROBLEM:**  
**FLAT, LIFELESS HAIR.**

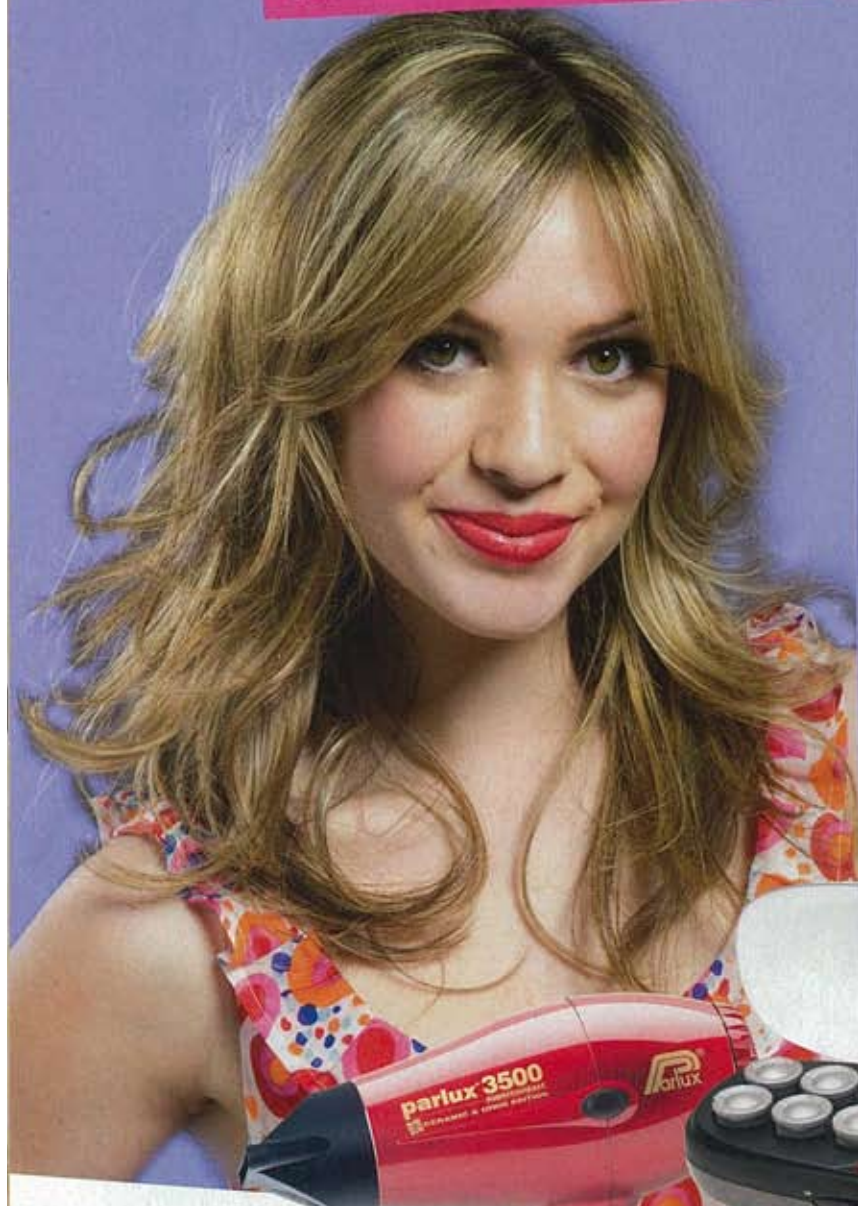

My hair's as flat as a pancake. How can I get voluptuous curls without looking like Bo Peep?

**RETRO WAVES!**

**1** Apply Dax Texturising Foaming Mousse to freshly washed hair. This will add volume at the roots and protect hair whilst thermal styling. Blow-dry your hair using the Parlux 3500 SuperCompact Ceramic & Ionic Dryer with a Brushworx Pharmacy Ceramic Hot Tube Brush, to smooth your hair and prevent frizz.

**2** Divide hair into medium-sized sections and wrap each section up around a BaBylissPRO Jumbo Hot Roller. When finished, wait until your hair has completely cooled down, then gently unwind each roller. Flip your head over and lightly run your fingers through the root area to separate and loosen the curls.

**3** To complete your look, pass the Silver Bullet Black Crystal Crystalline Ceramic Straightener lightly through the crown and fringe sections for an ultra-smooth and glossy finish.
