**Redken For Men Bulk Up Spray**

There's no need to follow Nicholas Cage's example and fork out a small fortune for a new hairline. The day may come, of course, but until then this polymer-rich spritz adds fullness and flexibility to fine and thinning hair. \$28.50; 1300 650 170.

**Schwarzkopf Extra Care Power 'n' Touch Wax**

For the matte, strong definition look popularised by Robert Pattinson, hair needs to be manipulated. You can keep your carefully arranged strands touchable and pliable, though, with this form hold wax. \$8.99; supermarkets and pharmacies.

**L'Oreal Professionnel Homme Sculpting Fibre Paste**

Fine hair is a bitch to style. You can faff around for ages and still look like a drowned rat. This light, flexible hold paste doesn't weigh the hair down and helps create a 'lite', deconstructed look. \$27; 1300 656 247.

HAIR CARE

The great casualty of men's hair styling has been the comb. Waxes, pomades, putties and more have become the tools for styling men's hair but it can be a minefield out there. Wild and wacky product names abound and instructions on how to use them are often so minimal they could

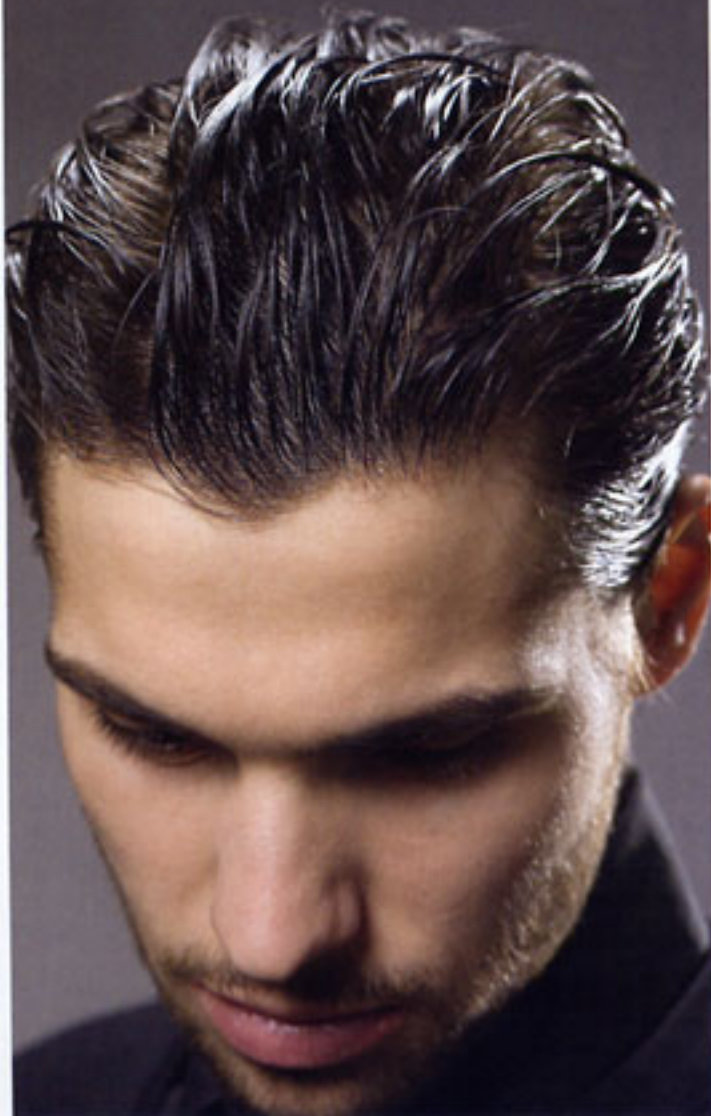

double as encryption codes.

Protection is key, too. A British survey revealed that one in 20 men use a hair straightener and it's the same story in Australia, with sales of mini-straighteners suitable for short hair soaring. Wavy hair knows no gender and frizz doesn't either. If you blow-dry or straighten your hair frequently, it's time

Waxes, pomades, putties and more have become some of the tools for styling men's hair.

to start using trusty old mousse or a de-frizzer.

That's just one issue solved. We've come up with a checklist of products that work – new and tried-and-true – to help you swap styles or maintain the cut you've always wanted. ❖

**Pantene Pro-V Sheer Volume Body Builder Mousse**

Believe it or not that old standby – mousse – still delivers the goods for hairstyles of all lengths. Used on wet hair, it produces a sleek, finished look that lasts. This light-bodied foam also allows you to re-style dry hair from a day to a night-time look without feeling sticky. \$6.99; pantene.com.au

**Goldwell For Men Power Gel**

Speed and efficiency are the standout qualities of gel. Good quality gels like this alcohol-free smoothie won't dry out your hair or cause flaking. A five cent-sized amount is ample unless you want your hair to hold firm in a hurricane. Dry natural for shine or blow-dry for the James Franco look. \$20.95; 1800 506 060.

**Dax Super Neat Water Rinseable Hair Creme**

Many guys dislike using too much product but don't want their hair to look undisciplined. Short and medium-length hair toes the line with this medium-hold cream recommended for all hair types. \$11.95; 1800 251 215.

**John Frieda Frizz-Ease Secret Weapon Flawless Finishing Cream**

Humid or dry weather, too much blow-drying or wielding the hair straightener can lead to frizzy, hard-to-control hair. Smooth things over with this high-performance cream, which also adds shine. \$16.99; johnfrieda.com

**Joico Brilliantine Pomade**

The multi-tasker of hairstyling products, pomade conditions, styles and adds texture and shine. This water-based formula works best on short to medium hair. Use a tiny amount for a strong, pliable hold. \$22.95; joico.com

**Tresemme 24 Hr Body Finishing Spray**

Hairspray isn't just for women. It's the simplest, most effective hair styling aid for men, too. Spray on wet hair to style and mould, or spritz on dry hair to hold in place. This light finishing spray offers natural hold and brushes out easily. \$7.95; tresemme.com.au

**Tigi Bedhead B For Men In Check**

There's only one thing worse than battling unruly hair. Not being able to control it. Tamp down boofiness and define curl with this powerful tamer-in-a-tube. \$24.95; tighaircare.com
